

Smart Start Introduction to Oral Health Training for Pre-school Services

Health Promotion Training for Pre-school Management and Staff

Introduction

Aim

**To improve the level of oral health
of pre-school children**

Objectives:

- **Raise awareness of oral health issues in pre schools**
- **Educate childcare providers/parents on key oral health messages**
- **Encourage pre school services to incorporate oral health into the curriculum/setting.**
- **Support childcare providers in promoting oral health practices in pre schools**
- **Facilitate partnerships with other sectors and agencies working with pre-school children and with parents**
